DETAILED ACTION

Election/Restrictions

1. Claims 1, 35, 64, 92, and 125 are generic to the following disclosed patentably distinct species:

Catheter introduction system :

- A) figures 1-1K,
- B) figures 2A-2B, and
- C) figure 2C.

Upon election of one of the abovementioned, a further election follows:

Catheter devices:

- a) catheter shown in figures 1-1K,
- b) catheter shown in figures 2A-2B,
- c) catheter shown in figure 2C,
- d) figures 3A-3B,
- c) figures 4A-4B,
- d) figures 5A-5B,
- e) figures 6A-6B,
- f) figures 7A-7B,
- g) figure 8,
- h) figure 9,
- i) figure 10A,
- j) figure 10B,
- k) figure 10C,
- l) figure 10D,
- m) figure 11,
- n) figure 12
- o) figure 13,

Art Unit: 3763

- p) figure 14,
- q) figure 15A,
- r) figure 15B, and
- s) figure 16A-16B.

The species are independent or distinct because they are different structurally from each one. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. A telephone call was made to Scott Smith on April 10, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
